

I've been living with Rob van Acker for over 10 years at the Meidoorn and thoroughly enjoying it. When I heard from Rob that the former football fields might be turned into a parking lot, I thought it was important to work with Rob to try a previously suggested plan for a neighbourhood park at that location again. It's so fantastic to me, and more than I dared to dream a year ago, that we've managed to get such a fun group together and that the neighbourhood park is becoming reality.
