

My name is Jean-Pierre Sthijns, I was born at the Akersteenweg and still live there today.

A liveable neighborhood where people can live comfortably, can meet and support each other, and can be active in an association is very important to me.

The neighbourhood park "De Groene Poort Oost" was initiated by volunteers from Scharn and Heer, who are now trying to make it happen.

This neighborhood park should become a meeting place for and by the neighbourhood residents, a place where children can play, a sports field, a neighborhood garden with fruit trees and recreational opportunities for both young and old.

In short; this neighborhood park makes a major contribution to the quality of life and connection between the two

neighborhoods of Scharn and Heer.

That's why I want to contribute and commit myself to this initiative.
