

I look out on the football fields from my backyard and I've been involved in trying to find a new green purpose for it for almost 5 years now. I'm glad that we've found an enthusiastic group that is actively trying to figure out possibilities since the beginning of this year. I hope for a neighbourhood park where everyone feels at home, a park that connects the surrounding neighbourhoods. During the past year we've seen how important it is to relax in the vicinity of your home. I don't really have green fingers, but as a designer, I like to think about things like benches, a BBQ place, natural play elements, a beautiful entrance and a house for the playground. I think it's great that we get to build these things with people from the neighbourhood!
